

Armistice Dance In Irma, Tuesday, November 11th

Frig Jamboree Dance and Draw Held November 5

The winners of the 10 New-International Harvester Company Refrigerators given away at the Refrigerator Jamboree and Carnival sponsored by the Irma Community Memorial Arena Committee on behalf of The Irma and District Board of Trade in Irma, Alberta, on Wednesday, November 5, 1952, are as follows:

Eugene Meyer, No. 2450, Irma, Alta.
Ken Wolsey, No. 974, 9340-101A Ave., Edmonton.
J. R. Freestone, No. 151, Bordaile, Alta.
Arnold Enger, No. 799, Irma.
Mr. W. Wilkie, No. 1131, New Norway, Alta.
Mrs. D. E. Hines, No. 760, Vermillion, Alta.
S. H. Howden, No. 2114, 11507-102 St., Edmonton.
W. Brown, No. 514, Kinella.
Murray Rae, No. 2294, Irma.
Howard Schreyer, No. 791, Mannville, Alta.
More news next week.

Southern Sayings

Mr. and Mrs. Eric Baldwin and family and Mr. and Mrs. Floyd Hinecker and daughter, all of Edmonton, were visitors at Mr. and Mrs. J. Jackson's on Sunday.
Margaret Spooner was a patient in the Wainwright hospital last week-end but is home again.
Mr. Ray Reber accompanied his two brothers Lew and Clarence to Valleyview, Alta., for a visit and hunting trip with their other brothers, Frank, Tommy and Willie who live up there.
Arthur Jackson accompanied Floyd Bronson and Orville Hinky with a truck load of implements to Orville's farm at Valleyview. They will also take in some hunting while there.

Glen-Coa Gleanings

Mr. and Mrs. Geo. Pedel accompanied by Mrs. Satre and Mrs. Likness spent last Saturday in Camrose.
Mr. S. Nilsson and Erling attended the Purebred Hereford Sale at Veterans last Monday.
Edmonton visitors last week were Mr. Fred Knudson, Mr. and Mrs. J. Halvorsen and Mrs. Reitan.

Church Services

ST. MARY'S CHURCH
Service of Evensong will be held in St. Mary's on Sunday, Nov. 9 at 7:30 p.m.
UNITED CHURCH
Sunday, November 9
Passchendale 11 a.m. Remembrance Day service.
Irma Sunday School 11 a.m.
Remembrance Day service 7:30 p.m.
Blessed is the Nation whose God is the Lord.
H. W. Inglis, Minister.

IRMA CURLING CLUB

Will hold their
ANNUAL MEETING
In HEDLEY'S HALL

THURS., NOVEMBER 13

At 8:00 p.m.

—ALL CURLERS PLEASE ATTEND—

Annual Fall Rally Held at Ryley October 22

The Third Annual Fall Rally of Wainwright Presbytery W.A. was held in Ryley United Church on Wednesday, October 22 with over fifty delegates and visitors present.

The meeting opened with a pot luck luncheon at 12:30 p.m. served in the dining room adjacent to the church on tables laid in white linen and adorned with lovely bouquets of chrysanthemums and potted asters. Mrs. R. Greig and Mrs. J. L. Hay were the reception committee.

Registration showed delegates from the following points: Irma, Kinella, Viking, Bruce, Lakeshore, Tofield and Ryley.

Mrs. R. Enger acted as president and Mrs. McLean as secretary, both of Irma and Mrs. Nolan of Bruce as treasurer. The secretary's report showed a lively membership. The treasurer's report showed a balance of \$65.07.

Mrs. Knight was in charge of the devotional. Mrs. A. J. Thorley welcomed the visiting delegates and Mrs. Nolan of Bruce responded, thanking the Ryley W.A. for their kind hospitality.

Miss Mavis Grafts rendered two beautiful solos. Mrs. E. P. Mehus accompanied her.

Mrs. Enger gave a report of the Alberta Conference Branch held at Calgary last spring at which 200 delegates were present.

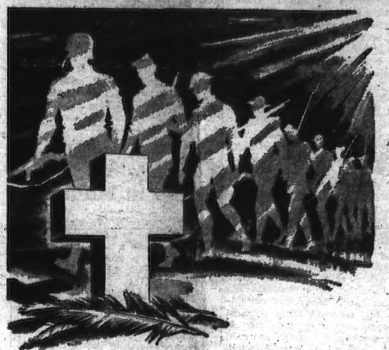

For the United Church Training School Mrs. J. L. Hay reported that Wainwright Presbytery allocation was \$385.00 and all but \$14.00 of this has been sent to the W.A.

The highlight of the Rally was an address given by Rev. Knight of Viking, who, for many years, was a missionary in the Honan province of China.

ATA Sub Local Meeting

The Irma Sub-Local ATA held an organization meeting Saturday evening, October 11. Officers elected are: President Mrs. Jean Larson; Vice-Pres. Mrs. Mildred Chase; Secretary-Treasurer Mrs. Marion Murray. With nearly full attendance it was decided to hold a School Festival at Irma again this year also to have meetings every two weeks until December. The program for these meetings will be mainly the organization of a workshop to study the topic "Testing" which is to be prepared by the Irma Local for presentation at the Institute in late January at Wainwright.

At the second meeting Oct. 23, there was a good attendance. Mr. Lindstedt very kindly came up to the meeting and helped with literature and suggestions. Committee conveners were appointed to study the topic in sections and collect material to present at the next meeting November 8 in the evening at 8 p.m. Irma School. The Executive wishes to express appreciation for the efforts of the teachers, both for their attendance at meetings and willingness to take of their own time for this extra work.

In Flanders' Fields

In Flanders' fields, the poppies blow
Between the crosses, row on row
That mark our place; and in the sky
The larks, still bravely singing, fly
Scarce heard amid the guns below.
We are the dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved and were loved, and now we lie
In Flanders' fields.

Take up our quarrel with the foe!
To you from failing hands we throw
The torch. Be yours to lift it high!
If ye break faith with us who die
We shall not sleep, though poppies blow
In Flanders' fields.

LT. COL. JOHN McCRAE
France 1917.

CGIT Groups Meet Here

Thirteen CGIT members from Wainwright attended the CGIT Rally at Irma on Tuesday, Nov. 4. At 5 o'clock games were organized in the school gym by Mrs. Inglis. A pot luck supper served by the WMS was then enjoyed in the church basement to about 40 girls and their leaders. President Olga Hynka then addressed the group and vice president Marian Lovied a song. Song Groups then were formed for a discussion period. Following this Sheila Lovig who had been to National Camp gave an address telling of her experiences and the advantages of camp life. Olga Hynka who had been to camp council and also to Olds convention also outlined the benefits she had received and made everyone enthusiastically to have a like experience. Mrs. Inglis led a Negro spiritual and Miss Angus spoke on CGIT and led the vesper service.

Jarrow News

W. Lockhart is sporting a new G.M.C. light delivery.
Mr. and Mrs. Percy Wright and Clifford spent a very enjoyable week-end with friends and relatives at Lavo.
Mr. and Mrs. E. Young and family visited at Marwayne over the week-end.
Mr. and Mrs. Merle Knudson and sons and Mrs. P. Sutherland and family were guests at the C. Sonett home on Sunday. The Date: November 15 at 2:30 p.m. The Place: The Jarrow Hall. What's This? The annual W.A. Bazaar. The one you can't afford to miss. The spot you get your fancy work, socks and mitts. Fish pond, mystery table and sweets galore. And lunch so dainty, you'll ask for more.
Mr. and Mrs. Swingen and family of Foremost have now moved to the Bellan farm west of town. The district wishes to extend a welcome to them.

To All Members Of the Irma Curling Club

Elsewhere in this issue of the Times is a notice for the Annual Meeting of the Irma Curling Club (Thursday, November 13). Everyone make an effort to attend this meeting. You will hear a full report on the standing of the Club and the condition of the rink. I have to report that considerable work is necessary to complete the curling rink. If any one has the time, can take the time and has the willingness to work, I'm sure we can find work for them to do. If anyone desires to work, please let me know the evening before so that material is on hand.

Anyone who can aid with the financing now will find that we will welcome that help too. We have bills.
There is no reason why the rink cannot be finished and ready for ice before December 1, with a little concerted effort by us all.
Let's make that effort.

A. C. Milne, President,
Irma Curling Club.

Easterly Echoes

The Battle River W.A. met at the home of Mrs. A. Bacon on Thurs. Roll call was answered by "Favorite Pie Recipe" Program Mrs. A. Bacon, draw Mrs. R. Dempsey and hostesses Mrs. A. Bacon and Mrs. E. Fenton.
Mr. Howard Oldham is a patient in an Edmonton hospital.
Mr. Harold Moore left Thursday for a visit with his father and brothers in Lansing, Mich.
Mr. Arnold Enger spent the week-end in Edmonton where, with his cousin Mr. Colin Carter, he took in the football game between the Winnipeg Blue Bombers and the Edmonton Eskimos, also the one between the Edmonton Wildcats and the Vancouver Red Raiders.
The Amateur contest sponsored by the Sew and So Club is scheduled for the Passchendale School on Thursday, November 7. Everyone welcome.

Northern Nuggets

Miss Evelyn Herder and Mr. Ronald Currie were guests of honor at a miscellaneous shower held in Albert School on Wednesday night. Decorations of pink and white paper streamers with the conventional white bells lent a festive air to the room. An interesting program was conducted by the hostesses Mesdames J. Bars, A. Fleming, P. Miller and H. Bars, consisting of several contests and a well-applauded song written for the occasion by Mrs. H. Bars and sung to the tune of The Blue Skirt Waltz by Mrs. Miller and Mrs. Bars. Presentation of the gifts, which were hidden in what appeared to be a huge nicely decorated three-decker wedding cake, to the young couple was made by Mrs. Miller. Ronald on behalf of Evelyn and himself, thanked the donors. A nice lunch was served by the hostesses assisted by the Misses Jean and Joan Fleming.

Mr. and Mrs. Les Brody and small son Dwight who moved from the Albert district last week are comfortably settled in their new home in Edmonton.

Miss Doreen Kennedy has been visiting at the home of her sister Mrs. H. Bars.

An interesting demonstration on the making of Judy dress forms was conducted by Miss Shirley Holmes, District Economist, Wainwright, at the home of Mrs. P. Miller on Tuesday afternoon. Tea served by the district ladies was an added attraction.

Mrs. I. Meakins is receiving treatment from Dr. Hasingoff, of Mannville, for an eye condition. Her intended visit at the coast has been postponed for a month.

Irma folk attending the Currie-Herder wedding in Edmonton on Wednesday included Mr. and Mrs. C. L. Currie, Mr. and Mrs. H. Riley and Mr. Keith Currie.

With Mrs. A. Larson at the controls, goblins, witches, ghosts and clowns mingled, played and feasted at Albert School on Friday night. Prizes for costumes went to: 1st Carol Matthews as a monkey; 2nd Marjorie Matthews as a witch; 3rd Enid Jones as a cow girl. Judges were Mrs. C. Ramsay and Messrs. Earl Blanchard and Bob Lukens.

Constable Lloyd Johnston, a former Albert boy, now a member of the RCMP and stationed at Penticton, B.C., is back at work after prolonged medical treatment for complications following the setting of a broken collar bone. Lloyd will be on leave in mid-November and will spend it with his parents Mr. and Mrs. H. Johnston now resident in Vermilion.

Mrs. Ron Clark (nee Mary Currie) and daughter Wendy of Calgary are visiting Mrs. Clark's parents.

Mrs. H. Bars and Jimmie spent the week-end with Mrs. Bars's parents, Mr. and Mrs. J. Kennedy. While threshing at the P. Miller farm with the M. Lovig outfit, Bob Lukens narrowly escaped being caught in the belts when, owing to the uneven ground, the rack-load of bundles on which he was riding capsize over the engine.

Newlyweds Mr. and Mrs. Ron Currie have returned from Edmonton and taken up residence on the Haakon Larson farm.

A dance to augment the Xmas tree fund was held in Orindale School on Friday night. Music was supplied by Mrs. S. D. Coulthart and Mr. Erle Prior.

Mr. Keith Currie left on Thursday for Calgary where he expects to remain for some time.

Mrs. W. D. Ramsay entertained the district ladies at a Tupperware Tea on Wednesday afternoon with Miss H. Noonan of Vermillion as demonstrator. Lunch was served by the hostess.

The McRoberts family week-ended in the city and at Tofield.

WANTED

Carpenter for Reck. Apply to Secretary-Treasurer, Village of Irma.

Legion to Sponsor Armistice Dance November 11

The Irma branch of the Canadian Legion No. 112 are sponsoring the annual Armistice dance on Tuesday, November 11 in Kiefer's Hall. Music by Coulthart's orchestra. Admission, men 75c, ladies 50c. Everybody welcome.

Don't forget the Irma United Church 42nd Anniversary, Nov. 16 and 17. The Rev. Norman Knight of Viking will be the guest speaker at both the church services and the anniversary supper.

Farm Labour

FOR SOME TIME a shortage of labour has been a problem to farmers in almost all parts of Canada. Many additional workers have been brought into the country through immigration and this has been a great assistance in many cases. Increased mechanization of farms has also alleviated the situation, but in spite of these measures there is still need for more farm workers in Canada each year. Since agriculture is one of our major industries the problem of farm labour is an important one here. However, a recent report from the International Federation of Agriculture shows that there are serious shortages in other countries also. The United States, New Zealand, France, Norway, Northern Ireland and a number of other countries are said to have the same difficulties as Canada in regard to farm workers.

Less Need In Some Places

Scotland, Iceland, Sweden, Argentina and Germany are among the countries in which there is less difficulty in securing farm labour. The survey showed that the greatest shortages occur in those countries which are highly industrialized and that in almost all cases the shortage is blamed on the fact that workers leave the farms to take employment in cities and towns. Higher wages and more attractive living conditions in urban centres draw labour from the farms and leave a continuous need for help on the land. The Canadian Federation of Agriculture reported a need for from fifteen to twenty thousand additional workers this year on farms in this country.

Must Compete With Industry

In many countries seasonal help is brought in to meet the needs of the farmers at certain times of the year. Large numbers of such workers are brought into the United States from Mexico. Like Canada, New Zealand has attempted to solve the problem by encouraging the immigration of farm labourers from other countries, and many have been brought from the Netherlands and the East Indies for that purpose. While Canadians are interested primarily in the situation here, it is interesting to know that other countries have the same problem and that they deal with it much as we do. As Canada becomes increasingly industrialized, workers will continue to be drawn from the farms to factories, and the farmers will have to compete with wages and working conditions on the industrial labour market.

Finishes Job He Started Thirty-Nine Years Ago

EDMONTON.—James R. Lowery, 68, of Vancouver, was admitted to the Alberta Bar—39 years after he graduated in law from the University of Alberta and about 30 years after he passed his bar examinations.

"I don't like to start something and never finish it," he explained to Chief Justice G. B. O'Connor, who admitted him to the Bar.

Mr. Lowery's intended law career was put off after university graduation while he fought in the First World War, being injured at Vimy Ridge and retiring with the rank of major. After writing his Bar ex-

aminations in 1923 he became interested in oil.

Mr. Lowery said, however, that he won't practice law. He just wanted to join the association of barristers as he had planned many years ago.

MORE HOGS ON FARMS
There was an increase of 17 per cent. in the estimated number of hogs on Canadian farms at June 1 this year as compared with the same date last year.

BIG GAME COUNTRY
MOOSE JAW, Sask.—The southwest corner of Saskatchewan may become known as big-game country.

Les McKenzie of the Moose Jaw wild animal park received reports of lynx, timber wolves and cougars being seen in the district.

Eat Right—Live Right—Feel Right

New Type Potato Producing Good Results In Manitoba

Potatoes continue to be a very important crop, says the Morden Experimental Farm. Much effort is being made towards improving varieties through plant breeding programs. Two of the objectives are to develop varieties which are not susceptible to late blight and scab diseases. Gratifying progress is being obtained in the Department of Horticulture at the University of Manitoba where continuous potato breeding is underway.

Manota is a variety which has been introduced by the University after pleasing performances in Manitoba since 1945, when it was received as North Dakota seedling 134-19. It resulted from a cross made in 1938 in North Dakota.

The following description of Manota is from the "Summary Report 1951, National Potato Seedling and Variety Tests" by N. M. Parke, Division of Horticulture, Ottawa:

"This variety has proved to be well adapted to soil types and climatic conditions in Manitoba. It is a fast growing variety of mid-season maturity comparable to Irish Cobbler, and has good yielding ability, producing an average of six to eight tubers per hill, a high percentage of which are marketable. Tubers are formed close to the stem and are detached very easily at harvest. Its tubers are smooth, shallow eyed with creamy-white skin and very white flesh. Cooking tests indicate its quality as good. Manota is susceptible to the different virus diseases which commonly affect potatoes. It shows symptoms of leaf roll and mild mosaic very distinctly when infected. No evidence of net necrosis has been found in tubers to date. Also, the variety is susceptible to late blight,

common scab and bacterial ring rot. Hollow heart has rarely been found in Manota while Irish Cobbler grown under the same condition has a high percentage. The Manota variety of potato was licensed for sale in Canada in 1952 and is now eligible for certification. Because of its early maturity, good market and cooking qualities it is felt that the Manota will fill a very definite need in the potato industry in Manitoba.

10-Day Season For Hunting Big Game In Manitoba

WINNIPEG.—G. W. Malaher, director of game and fisheries in Manitoba, announced a 10-day season for big game from Nov. 24 to Dec. 4 inclusive, except for the intervening Sunday, Nov. 30.

The limit for deer will be one male animal over the age of one year, the same as last season.

Hunting of moose will be restricted to the area north of the 53rd parallel and to residents of Manitoba. Dates and bag limits are the same as for deer.

An open season for barren ground caribou will be held Dec. 1-31 but only for bona fide residents in the caribou range in Manitoba. The limit is one adult animal. There will be a closed season for woodland caribou, still comparatively scarce in all parts of Manitoba.

Funny and Otherwise

Two privates were discussing their N.C.O.s in the canteen. Said one: "I hear Sergeant Brown's had a heart attack."

"Didn't know he had a heart?" remarked the other.

"Now Tommy, spell straight." "S-t-a-r-t-i-s-h, mate."

"Correct. Now what does it mean?"

"Without soda."

Husband: "From the glimpse I had of her this morning, I rather like our new cook. There seems to be plenty of go about her."

Wife: "I don't like to start something and never finish it."

Mrs. Jones returned from a visit to the doctor very cross indeed. "Do you know that he charged me three dollars for painting my throat with iodine?" she complained.

"I don't call that very much," replied Mrs. Brown.

"Not much?" said Mrs. Jones. "Why, I had my kitchen white-washed all over for five."

Father: "Hallo! Where's Alfred gone to?"

Mother: "If the ice is as thick as he thinks it is, he's gone skating; but if it is as thin as I think it is, he's gone bathing."

The Sunday school lesson was from 2 Kings xxi, and read:

"Joshiah was eight years old when he began to reign and he reigned thirty and one years in Jerusalem."

On describing the lesson to his mother, John, aged four, said:

"The lesson was about a good rain and there was a little boy named Joshiah and he began to rain when he was eight, and when he was thirty-one it was still drizzle."

"You will marry," said the fortune teller, "a tall, dark man—"

"Oh, dear, how shall I break it to Albert? He's five feet two and ginger!"

Monica: "What kind of stone is in Jane's engagement ring?"

Aune: "A rolling stone. I had it once."

"Aren't you the thought-reader who was entertaining the company a couple of hours ago by finding needles and other small objects they had hidden?"

"Yes."

"Well, what has kept you here so long?"

"I'm looking for my hat!"

A quack was selling a tonic, which he declared would make men live to a great age. "Look at me," he said, " hale and hearty, and I'm over 500 years old!"

"Is he really that old?" asked a listener of the quack's youthful assistant.

"I can't say," was the reply. "I've only worked for him 150 years!"

"Dad," said a small boy, "what is a diplomat?"

"A diplomat," replied his indulgent parent, "is a man who can convince his wife that she wants an umbrella when she wants a fur coat."

Feet Getting Bigger

TORONTO.—Canadians are getting bigger feet every year, shoe manufacturers in Toronto for the Sho and Leather Fair say. The average Canadian woman wore a four or 4½ shoe 25 years ago, but today she takes a six.

SASKATCHEWAN DOG SHIPPED TO CHILE

WATROUS, Sask.—A registered St. Bernard pup from kennels here has been shipped to a mountain resort in Chile, to be trained for rescue of lost sportsmen. Many dogs have been shipped from here to United States points, but this is the first to South America.

For Next Few Years

University Graduate Shortage In Several Professions Expected

OTTAWA. — According to Labor Minister Milton Gregg a shortage of university graduates could be expected in several professions for the next few years. The labor department estimated that about 2,000 graduate engineers of all types would be required by Canadian employers each year "for some years to come." This year about 3,000 students are enrolled in engineering courses.

"According to present enrolments in engineering, only slightly more than 3,000 engineering students can be expected to graduate each year for at least the next three or four years," Gregg said.

"There has been a steady increasing demand for graduates in commerce and business administration during the postwar years. The three broad fields for commerce graduates are industry, financial firms, and accountancy. Nearly all firms in this category report a tendency toward a much wider use of people with university degrees than in the past. This will be a sufficient demand to absorb all forestry graduates for the next few years," the labor minister said. "For the next three years graduates are expected to average about 100 each year, with an estimated demand perhaps reaching as high as 150 each year."

Gregg said there was also "a very definite shortage" in dentistry. About 200 dentists are expected to graduate each year for the next few years, but more than 100 veteran dentists retire or die each year.

"There appears no prospect of the shortage of dentists being overcome in the foreseeable future," Gregg said.

He said a "decided shortage" also would continue for several years among pharmacists, verity training and they expect this trend to continue.

Gregg said that postwar classes were abnormally large in the field of forestry, but an increased use of graduates in forestry in both management and logging operations has resulted in the large classes being absorbed successfully.

"Present indications are that there

Distinguishing Autumn Leaves

Before the advent of winter snow and cold, many motorists enjoy a final glimpse of nature in all its glory. The tints of autumn landscapes appeal to some people more than the fragrant odors of spring, or the refreshing scenes of verdant summer.

Shades of yellow and orange are in the leaves during the entire summer, but are not noticed because of the presence of chlorophyll, a green substance which enables the foliage to derive energy from sunlight. With the approach of cold weather and the ending of the growing season, the green coloring is withdrawn from the leaves and stored for another season, or it is killed by the gradual formation of a thin layer of cells where the leaf is attached to the twig, shutting off further flow of sap, thus finally causing the leaf to fall.

The most delicate, as well as the most brilliant colors of red, scarlet, flaming scarlet, and burnt orange are formed by sugar manufactured

by the leaves and left after the growing season. Other chemical substances such as tannin and accumulated toxins either act on the sugars or in themselves give variations in the red and orange colorations. While frosts are not necessary for the turning of the leaves, they do accentuate and hasten the autumn coloration.

The following table will aid autumn visitors in distinguishing the different shades by leaf coloration:

American Elm, yellow.
Ash, yellow to dark purple.
Basswood, yellow.
Beech, clear yellow.
Birches, bright to orange yellow.
Box Elder, bright yellow.
Butternut, yellow.
Hawthorn, brilliant colors and fruit.
Hazel, brownish yellow.
Mountain Ash, clear yellow, red berries.
Mountain Maple, yellow and scarlet.
Poplar, yellow and golden.
Red Maple, scarlet and orange.
Red Oak, dark red.
Scarlet Oak, brilliant scarlet.
Sheep Birch, bright clear yellow.
Sugar Maple, yellow to orange and scarlet.
Silver Maple, pale yellow.
Striped Maple, light yellow.
Sumac, brilliant red.
Tupelo, flaming red.
White Oak, deep red to orange brown.
Willow, light yellow.
Witch Hazel, yellow orange, rarely purple.

—Sunshine Magazine.

Patterns

So Pretty! So Easy!

by Alice Brooks

Plaid or check 'n' plain is the latest fashion news! Add a touch of simple embroidery or often lace and she's the prettiest girl in school! Quick, new now!

Pattern T-111, Girls' Sizes 8, 10, 12, 14. Transfer motifs and pattern parts. Size 12.

To obtain this pattern send twenty-five cents in coin (stamps cannot be accepted).

Household Arts Department, Winnipeg Newspaper Union, 64 Front Street W., Toronto. Be sure to write plainly your Name, Address and Pattern Number.

Exciting! Our 1952 edition of Alice Brooks' Needlecraft Book! Beautiful of new ideas, it's only twenty-five cents. NINETEEN illustrations of patterns of your favorite needlecraft designs, plus SIX easy-to-do patterns printed right in the book.

SHOULD BE POPULAR

NOTTINGHAM, England. — Railway authorities here are thinking of introducing nurses' coaches for mainline trains. Ideas include heating rings, low seats and a counter with foods and medicines.

GEN. IRE REWARDS AN ADMIRER—Seven-year-old Jimmy Waldzak is introduced by Gen. Dwight D. Eisenhower to the crowd at Bay City, Mich., after having chased the campaign train for a mile as it slowly rolled into the town. The GOP presidential nominee, who promptly invited Jimmy aboard his car, told his audience that the boy's run "was one of the gamiest things" he had ever witnessed in his life.

Total Of New Homes Completed In Canada This Year Will Fall Below Figure For 1951

OTTAWA. — Indications are that the number of new houses completed in Canada this year will fall far below the total for 1951.

The Bureau of Statistics reported that only 33,055 houses were completed in the first seven months of this year compared with 43,620 in the corresponding period of 1951, a decrease of 10,565.

The report showed that if the 1951 total is to be matched, 43,255 houses will have to be completed in the last five months of this year.

The number of houses started in the first seven months of the year totalled 44,050 compared with 44,588 in the corresponding period of 1951. In June and July starts totalled 11,085 and 8,709 compared with 9,514 and 8,128 for the corresponding months of 1951.

The bureau's report gave no reason for the decrease. The Crown-owned Central Mortgage and Housing Corporation, however, has blamed high costs and a shortage of mortgage money for the drop in construction activity.

The number of new houses completed by provinces in the seven-month period with the corresponding figures for 1951 in brackets: Newfoundland 453 (515); Prince Edward Island 16 (220); Nova Scotia 772 (1,053); New Brunswick 506 (534); Quebec 9,825 (13,174); Ontario 13,410 (18,584); Manitoba 1,029 (1,257); Saskatchewan 225 (712); Alberta 2,684 (3,230); British Columbia 3,655 (3,961).

Residents Moved Village Near To The Airfield

FAIRBANKS, Alaska. — The village of Huslia in interior Alaska some time back petitioned the Alaska Department of Aeronautics for a new airstrip. The department was forced to locate it two miles from the village. The 2,400-foot strip was finished recently and Huslia residents promptly began moving their village, bag and baggage, to the edge of the airfield.

INCREASING RAPIDLY

The population of the United States is increasing at the rate of about 2,500,000 persons yearly.

Smile Of The Week

Three men were repairing the telephone wires. Betty drove along the road in her car, and when she saw the men climbing the poles she said: "Look at those people—you'd think I had never driven a car before."

APPETIZING RECIPES

There's nothing as tasty as a good, hot chowder on a cold, windy night. This one is made quickly with canned corn and celery soup. Remember to make enough for second helpings!

Corn Chowder

One tsp. salt, 1 cup water, 1 cup pared, diced, raw potatoes, 1 cup canned cream style corn, 1 can condensed cream of celery soup, unflavored, 1/4 cup milk, 1 tbsp. butter, 1/4 tsp. minced, dash pepper, 1 tsp. nutmeg, parsley.

Add salt to water and bring to a boil. Add potatoes, cover and cook until tender. Add remaining ingredients except parsley. Heat, stirring frequently. Serve, sprinkling a little parsley over each serving. Makes 3 1/2 cups or 4 meal-size servings.

Beef Casserole

One lb. round steak, ground, 2 tbsp. fat, 1 cup chopped onion, 1 can condensed tomato soup, 1 1/2 cups water, 1 8-ounce package noodles, salt and pepper, 2 1/2 cups canned cream-style corn, 1 cup grated cheese.

Brown meat in fat, add onion and cook till golden brown. Add tomato soup, water and noodles, cook about 10 minutes, stirring often. Season, add corn, and ring off heat. Sprinkle with 1/2 cup of the grated cheese. Put into 2-quart greased casserole, sprinkle with rest of cheese and bake in 350 degrees F. oven for 45 minutes. (Serves 6).

Saskatchewan Town Is In Centre Of Rich Oil Basin

ESTEVAN, Sask.—When Estevan's ship comes in the border town's 4,000 residents confidently expect that it will be fully laden with a cargo of light oil. The ship is strictly dream-boat stuff but the oil is no pipe dream. Oil "hot spot" of the prairie is a phrase that reverberates up and down the Souris River Valley and echoes back from the Williston basin.

Mayor Harry Nicholson says "oil prospects in the Estevan area look good." Along Main Street casual conversation will not get far before somebody talks of a derrick, sinks a deep-test well and from there on the discussion wades through a sea of oil—Estevan's sea.

How come all this optimism? Well, it's part geography, part geology, the favorable circumstance of an old ocean bed and the fact that promising discoveries of oil have been made in territory adjacent to and geologically associated with the Estevan terrain.

Estevan is in the Williston basin. Some 300,000 square miles of the basin run through Montana, North and South Dakota, Manitoba and Saskatchewan. American oil experts have said that this ancient sea chan-

nel may prove the biggest of all United States oil fields.

The picture is shaping up that way. At Togo, N.D., some 35 miles south of Estevan, there now are about 50 commercial wells producing light oil. Other discoveries have been made in North Dakota within 30 miles of Estevan.

Interesting things are also happening on the Canadian side of the border. At Ratcliffe, some 40 miles west of Estevan, test drilling is going ahead in expectation of finding the light-oil zone that proved to be so productive in the Togo-Williston area of North Dakota.

A small amount of light oil has been found at shallow depth near Flinton, Man., 90 miles northeast of Estevan and in the basin area.

Oil leases in the Estevan area, which once went for 10 cents an acre, now have reached a high of \$20 an acre. The town holds mineral rights on 100 acres for which it turned down \$25 an acre for oil-lease rights. This property is one of the few parcels of freehold land in the area still unleased.

Oil leases at Ratcliffe now are going for as high as \$50 an acre. Recently, a farmer of the Torquay district 25 miles west of Estevan was offered \$30 an acre plus a bonus of \$100,000 if oil was found on his property. He turned down the offer.

Farmers are being made tempting offers for oil leases and mineral rights but, with good grain crops this year, they are not rushing to grab the offers. Those who let their acreage go for as little as 10 cents a few years ago now are regretting their haste.

One farmer in the Crosby, N.D., area 28 miles southwest of Estevan reported he had reached \$50 an acre for his section of land. Others in North Dakota are reported getting as high as \$300 an acre.

ODDITIES In The News

When three men and a baby boy got together at Lehighville, Alta., recently for a four-generations picture, continuity was stressed. The cutlines under the photograph read John Garrett, John Garrett, John Garrett and John Garrett.

A. J. Lee has been a victim of burglars 33 times in his 50 years as a groceryman in Fort Worth, Tex. It's not as bad as it used to be, though. He was robbed 23 times in 24 months.

Japanese customs officials priced open cans in two cases labelled "staple canned lima beans and asparagus." Inside the air shipment from Hong Kong they found 900 watches, 64 sapphires and 226 watch bands valued at \$15,000.

Eddie Chapman, a \$1,000 fine and an extra six months in jail for escaping three times from the city jail in Birmingham, Ala. His reason for being home to share.

John Smith, Whitehall, Tex., has been taken to jail back. Some neighbors, thinking out Smith's well, found the teeth and returned them. They were teeth, however, because they had shrunk and didn't fit. Smith accidentally dropped them into the well 15 years ago.

New Map Of Canada To Be Issued Soon

OTTAWA. — A new map of Canada will soon be rolling off the presses giving an up-to-date topographical picture of the country from the 49th parallel to the Pole.

The 100-mile-to-inch map is the first new one in 22 years and will give an accurate picture of Canada's northland right up to and including the polar ice cap.

In addition Newfoundland, which joined Confederation in 1949, gets on the map as part of Canada for the first time.

Col. E. D. Baldock, Canada's chief cartographer, said it will be "the finest map Canada has ever produced."

The new map, square instead of oblong, will include all the latest information about the northland. Islands, lakes, rivers and towns previously not shown or unknown, will be put on the map.

Because of its projection and shape the new map includes part of Russia, colored white, at the left edge. On the extreme right Iceland appears.

Also mapped for the first time are two islands discovered by the R.C.A.F. in Foxe Basin, south of Baffin Island. One is named after the heir to the throne, Prince Charles, and the other is simply called Air Force Island.

The 38-inch-square map will have some 7,000 place names. The only roads shown will be those in the north and the Alaska Highway and the Mackenzie Highway. No attempt will be made to show roads in the vast northern areas but all railways will be shown.

Compilation of the map has taken two years.

IS PATRON SAINT

St. Crispin is the patron saint of shoemakers. He made leather sandals and preached to the poor in France during the third century until he was executed by the Roman governor.

Canadian Fashion

This Canadian-made jersey blouse and striped cotton skirt by Beatrice Pines is one of her Fall sportswear highlights.

Helpful Hints

If too much salt has been added to the soup or the gravy, put a few pieces of toasted bread into it for a few minutes, then remove, and the bread will have absorbed much of the salt.

The annoyance of a window sash that is difficult to raise and lower can be overcome by pouring a small amount of hot lard between the window frame and the casing, and also ensuring it along the sash rope and on the roller.

Cover a brick with a thick padding, and use this to pin the goods that must be held tightly while the work is in progress.

ANSWERS TO QUICK QUIZ

ANSWERS: 5. Wood pulp, 3, 625 miles, 1, 202 ft. high, 2,535 ft. long, 1,436 ft. wide, 4. From French Islands on the St. Lawrence to the Quebec-Labrador from deposits. 3. Taxes took over \$400 from every man, woman and child in the area. (Material supplied by the editors of Quick Canadian Facts, the handbook of facts about Canada.)

THE COMMUNITY BOOSTER SECTION

It's good business policy to purchase everything you can in the community where you make your living. The businessmen of the community contribute a large proportion of local taxes and to every worthwhile community effort.

Local businessmen are doing their utmost to serve everyone by stocking all lines of goods which are available. Your patronage enables them to extend their efforts to present you with the largest and widest range of goods.

Planning Your Kitchen Cupboards?

Finally your long awaited dream has come true—now you can say good bye to that old kitchen cabinet you felt was such a eyesore and replace it with compact, modern storage units.

But, I'll bet you're wondering what kind and what height of cupboards and what doors you'll find most satisfactory. Here are some ideas for wall storage units which may help.

Ideal storage is provided by wall cabinets which are built no higher than 66" from the floor. This way all objects on the shelves are clearly visible and easily reached. Shelving above 66" height should be used only for seasonal storage. Many prefer to close this area off by furring the ceiling down to 66" height or by finishing the area with fascia board.

1. The most popular wall unit has 2 doors which open over the work space. This unit is easiest to construct and simplest to operate.

2. The sliding door unit takes up less space because the doors do not project over the work surface. Storage is only 50 per cent exposed or immediately available which is a disadvantage. Doors may be made of glass or plywood and a hardwood strip may be substituted for the more expensive steel track.

3. Wide wall cabinets may have accordion-fold doors which swing back and do not project fully over the counter.

To prevent accidents the cabinet doors should not extend beyond the width of the base cabinet.

If you're having any trouble with your kitchen planning why not bring them to me? I would be very pleased to assist you.

Are You Buying A Fur Coat?

Here are some tips which point out good and poor quality furs.

A good quality fur is:

1. Bright and lustrous.

2. Uniform in color, depth and texture.

3. Soft and pliable on the leather side and also firm and strong.

A poor quality fur shows:

1. Barreness, baldness, scrawiness or unevenness of fur.

2. Matted areas.

3. Dull, faded or lifeless coloring.

4. Shiness in fur or leather, harsh, brittle and sometimes burnt.

RATS KEEP COMING

W. Lobay, Supervisor of Crop Protection, Alberta Department of Agriculture, warns that a slackening of interest can mean that rats will be well established in all parts of this province in the next twenty to twenty-five years. It took thirty years for them to cross Sask., says Mr. Lobay. Rats first invaded Canada over a century ago when the first white settlers started coming in. They have slowly followed man westward since.

As far as Western Canada is concerned, rats were first noticed at Emerson in 1909. By 1914 reports of rats came from Deloraine, Winnipeg, Portage La Prairie and Brandon. The movement continued north-west until by 1919, rats were seen near Yorkton, Sask. In 1929, rats were established in Regina and Moose Jaw. Surely, the westward movement reached Saskatoon and Swift Current by 1935-39. At the end of the next ten years (1940-49) the movement westward saw rats established within ten miles of the Alberta boundary in the Region through Lovena and South to wards Alaska.

In 1950 the first colony of rats in Alberta was discovered west of Alask, and since that time effort has been made to destroy every rat that made its appearance in the province. To keep the rats out of Alberta, co-operation of everyone in the province will be needed. Any signs of rats should be reported immediately to the nearest pest control officer so that prompt action can be taken.

QUOTAS NOT REMOVED

The Canadian Wheat Board has denied the report that delivery quota restrictions on top wheat grades have been removed at prairie delivery points. The board's instructions were "purely shipping instructions" authorizing the railways to speed shipments of high grade wheat from Manitoba and Saskatchewan to the lakehead. Producers' delivery quotas have not been altered to give priority to high grade wheat.

Highway No. 36 To be Extended North From Viking

(From The Viking News)

The persistent efforts of the Viking and District Chamber of Commerce to have the extension of Highway 36 from Viking to Lavoie seem to become a reality with the arrival of Mr. D. Gibson, chief engineer of survey and construction. Mr. Gibson has opened an office in the old town hall and will superintend the work from this point. We also understand that Highway 36 will be extended to Two Hills.

There is also a movement on foot which originated at Brooks, Alberta, where a meeting was held on Tuesday with representatives from all centres between Brooks and Two Hills urging upon the highway branch to eventually have the Hanna-Killam-Viking highway black topped to Two Hills. Hon. Gordon Taylor, minister of highways and Hon. D. A. Ure, minister of agriculture, were present at the meeting.

It is pointed out that Highway 36, if hard surfaced, would relieve the present heavy traffic on No. 2 highway between Calgary and Edmonton. Two Hills, Bonnyville and Cold Lake are very much in the limelight now due to oil and gas discovery and the immense airport being built in the Cold Lake area. With the junction of Highway 36 and Highway 14 here, it would make Viking a strategic point in the provincial network of hard surfaced highways.

The second car in the Hardisty Car A Month Club series was won by Mr. Fred Hunka of Edmonton, an employee of the Swift Canadian Co. who held membership No. 3867. The draw was made at a dance in the Hardisty Lake Pavilion. The third car will be awarded at a dance in Hardisty on Friday, November 28.

Mrs. Ida Streil, an old time resident of Viking, died in the local hospital on Friday, October 31. Her funeral, which was largely attended, was held on Monday, Nov. 3 from St. Mary's Church, where Requiem Mass was said at 10:00 a.m. She was buried beside her husband, the late Adolf Streil Sr., in St. John's Cemetery, Prague. A full account of the funeral will appear in next week's paper.

There will be an Armistice dance held in the Viking Community Hall on Tuesday, November 11, sponsored by the Viking Branch of the Canadian Legion.

Dr. A. S. Nay, former dentist here, but now located in Edmonton, visited friends and renewed acquaintances in town on Monday.

"A very valuable citizen"

When a bank manager was transferred recently a group of citizens wrote the bank in tribute to his sense of public service:

"During the time he was here, we found him to be a very valuable citizen. He always took a deep interest in our community, so we feel we have lost a valuable asset. However, we feel sure that his replacement will be made with a man of similar calibre."

A bank man, by the very nature of his work, becomes part of the life around him. During his training in various branches, and as he takes on growing responsibilities, he learns more and more about people and how his bank can help them. And he brings to his community his personal readiness to serve in any way he can.

Seven 4-H Club teams will represent Alberta at National Club Week in Toronto at the Royal Winter Fair. For the first time in history three teams are from this territory, the grain, beef and dairy teams all coming from Ryley, Tofield and Holden. A. Chomik is District Agriculturist. Mr. Chomik and the supervisor of Girls' Work in Alberta, will accompany the teams to Toronto. (Photo Courtesy Calgary Albertan).

The Good Earth

(By N. A. Chomik, District Agriculturist)

(From The Viking News) Calf Clubs Reorganized

Again this fall Beef and Dairy Calf Clubs are being reorganized for the benefit of rural youth. It is apparent that four Beef Clubs and two Dairy Clubs will be in operation. The Beef Clubs are located in the Viking, Holden, Ryley and Tofield districts, while the Dairy Clubs are located in Ryley and Holden. The members of the Beef Clubs will start their calves on feed on November 1, whereas the members of the Dairy Clubs will endeavor to select their calves in the months of November and December. The objectives of the Calf Clubs are the training of rural youth. Each training includes proper citizenship and leadership; how to feed, care for, and manage calves; how to judge, select, and cull cattle; keeping of records of feeding and growth; and in general the proper type of agriculture for our district. Members that belong to Calf Clubs are given a responsibility to do something. They meet with other young farm boys and girls and compare notes. They earn to do by doing. As a result they understand the problems and are better equipped for the future if they should undertake tarring. You will notice that these are Calf Clubs. Livestock is basic to permanent and sound agriculture in this area, therefore we encourage and organize livestock clubs, although we know that young farm boys are more attracted by new and modern farm equipment and spending most of their time with the same. Essential as modern equipment may be and undoubtedly its proper operation has no small part in determining the success of farming. Yet farm youth and their parents should realize the importance of livestock to sound and permanent farming in this area. It is hoped that through the Calf Clubs we can provide training for farm youth in one of our basic essentials of successful farming. If your boy or girl is of age and wishes to join any Calf Club, they can still do so by notifying this office immediately or by contacting the club leader in your district. New members can join till Nov. 15.

Trees Still Available

The Dept. of Agriculture is still accepting applications for trees. The kind available and in good supply are maple, green ash, spruce and pine. If you have land summerfallowed and wish to plant trees next spring, then don't delay. Write this office now for applications. Remember, it takes many years for these young trees with proper care to grow into a useful shelterbelt. Therefore start now so that in some future date you can still enjoy the benefits of your shelterbelt. Trees beautify and protect.

Exercise Care With Tractor

Your tractor can be your worst enemy if you handle it carelessly. High speeds and neglect of certain precautions by operators has caused tractors to kill several Alberta farmers every year. Don't take any chances with your tractor as the price you may have to pay is your life. Here are a few precautions to keep in mind—

1. Don't let children drive a tractor.
2. There is only room for one on the tractor and that's the operator. Don't take riders.
3. Don't hitch too high on tractor.
4. Don't wear loose or ragged clothes around the tractor.
5. Keep away from soft ditch banks and road shoulders.
6. Don't operate clutch from the ground.
7. Apply lock with brakes and leave in gear when you have to stop on a grade.
8. Don't drive a tractor when weary.
9. Slow down — high speed causes accidents which result in death.

Listing of Breeding Stock For Sale

This office would be pleased to receive a listing from breeders of purebred stock they have for sale. Young bull calves are generally in good demand at this time of the year and good grade as well as purebred females are likewise in demand. We would be willing to assist you to place as many of such stock as possible. Farmers interested in purchasing breeding stock can leave their requirements with this office and we will assist in whatever manner possible.

A Creed for All Christians

(Calgary Albertan)

"The Lord's Prayer is the creed for all Christians. It is the only perfect creed. Other creeds are human; this was given by Christ. Other creeds separate; this unites."

The Lord's Prayer awakens in the heart a sense of God. It does not turn man's eyes inward to himself, but upward to God. It begins not with petition, but with adoration.

"Our Father." Here is the arch at the entrance to the cathedral. God is our father because He has made us, He cares for us, and He loves us even when like the Prodigal, we have strayed. Since we are His children, we are brethren. Anyone who prays "Our Father" commits himself to the brotherhood of mankind.

"Which Art in Heaven." He has the care of the whole universe on His hands. There is no place in the universe where He is not.

"Hallowed Be Thy Name." The man who has no shrine lives like an animal. A good man has a sense of reverence. Some things are sacred. He feels awe before the mystery of life. And the Commandment still stands, "Thou shalt not bear the name of the Lord thy God in vain."

"Thy Kingdom Come." We pray that God's kingdom may come within us. Otherwise our prayers are a mockery. We pray also for that time of peace and justice when the Kingdoms of the world become the Kingdom of our Lord. So there is a Kingdom that is here and a Kingdom that is coming here.

"Thy will be Done." We pray for obedience. An old lady advised her young minister, "Be ye as ye will." God, Duncan, for He's aye right.

"Give Us This Day Our Daily Bread." Now we turn to our personal needs. It is right to pray for them. Yet when we pray we say "our," including all men. We pray also not only for material food, but for courage to meet life's trials, faith and hope to face the darkness, joy to keep life radiant, and love to make life kind.

"Forgive Us Our Debts As We Forgive Our Debtors." All of us need forgiveness yet how hard it is to forgive! To carry in your heart the bitterness of old grudges warps your life.

"Lead Us Not Into Temptation, But Deliver Us From Evil." No man is above temptation. Never be self-confident like Peter was.

"For Thine Is The Kingdom." God reigns. The world is so constructed that evil must meet disaster. "And The Power — God's will prevails. "And The Glory Forever" — As we look at His creation our hearts are lost in wonder, love and praise.

Queen Victoria was told she might remain seated during the Hallelujah Chorus. But she rose and stood with bowed head when the choir sang, "King of Kings and Lord of Lords."

THE WORLD OF WHEAT

By H. G. L. Strang

Time to Think About Seed

Harvesting is about over and now is the time for the farmer to think about the seed he will use to sow his crops this coming spring. Every farmer I suggest would be well advised to follow the practice now adopted by so many of planting A. SEED FIELD ON HIS FARM. This can be done by making arrangements to purchase a few bushels of the best seed obtainable of wheat, oats, barley or flax, and by sowing this on a field of clean summerfallow. The yield from such a Seed Field would give sufficient seed next year to sow 16 to 20 times the acreage. Registered Seed is the very best obtainable; it is true-to-variety to a high standard of excellence, is of high germination and practically free from adulterants. The use of Registered Seed results in higher yields and a higher quality crop. Farmers desirous of purchasing Registered Seed should place their orders as early as possible, this fall through their local Elevator agents. Then they will have the first choice of the best seed available. Elevator Agents and their Companies serve farmers by distributing Registered Seed to seed growers to farmers at no profit whatever to the Companies.

Canada's Famous All Year SPA Resort

Port Of Churchill Prepares For Winter—Boasts Bitter Climate

CHURCHILL, Mon.—High on the rim of the Arctic Circle in the Land of the Little Sticks, this busy Hudson Bay grain port prepares to bed down for the winter. In a few short weeks, ice will close in, cutting off grain shipments overseas which reached record heights this year.

Twenty-seven ships entered the port compared with 21 last year. All but one left with grain from Saskatchewan.

Grain clearances this season equaled to 8,500,000 bushels compared with 7,250,000 in 1951. Incoming cargoes totalled about 8,000 tons, considerably greater than in any previous year. Vessels from Britain, Italy, Germany and Chile took wheat to their home ports.

The shipping season at any time is short, limited to three months of the year. High insurance rates before July 26 and after Oct. 10 make the port an unattractive call.

The rest of the time, Churchill is a lonely, wind-swept port with air and rail its only outside contacts. The town, built in 1931, was carved

from a peninsula of rock and muskeg. While whales play in its beautiful harbor.

The climate is one of the most bitter in the world. Polar bears have wandered into town and outdoor water pipes have been known to freeze solid in July.

Little grows, mostly moss, and nothing over seven inches in Warren Lands just south of the 57th Parallel. In spite of ice and rugged terrain, there are some who want the shipping season extended. Sir Clement Jones, chairman of the Commonwealth Shipping Committee, visited Churchill last year and as a result insurance rates were dropped and the opening date moved back.

The Hudson Bay Route Association has said 20,000,000 bushels can be cleared from the port without trouble.

There is little hope for expansion of present facilities. The federal government, which administers the port, has said there are no plans for building.

The port came into existence because of savings in distance and freight rates. Some 1,076 miles are lopped off the route from Calgary and Liverpool compared with the trip through the Great Lakes to the Atlantic.

The single elevator has a capacity of 2,500,000 bushels. Average loading time is about 12 hours, but cars have been backed up for hundreds of miles waiting for ships to come in. To the great barrier, makes ship captains nervous. Helicopters were used for the first time this year in tracking paths through fogs and past treacherous icebergs. Radar is almost a necessity.

Forecasts Record For World Bread Grain Production

OTTAWA.—World bread grain production for the 1952-53 crop year was forecast at a record 5,720,000,000 bushels.

The bureau of statistics said that world wheat production for the year would total 7,150,000 bushels. The rice output was estimated at 1,570,000,000 bushels.

The bread grain production was roughly 370,000,000 bushels higher than the previous record set in 1938-39.

The bureau said that wheat turned an all-time high of 675,000,000 bushels of wheat in the 1952-53 crop year. The bureau said that wheat turned an all-time high of 675,000,000 bushels of wheat in the 1952-53 crop year.

"Though too early in the growing season in the southern hemisphere for definite indications," the bureau said, "present prospects point to around average crops in South America and slightly below average in Australia."

More Canadians Go To Europe

PARIS.—A record number of sea passengers travelled from Canada and the United States to Europe this year, the North Atlantic Passenger Shipping Conference announced.

Representatives of 19 major shipping companies from 10 countries held their bi-annual meeting to discuss progress and technical traffic problems.

F. A. Bates, chairman of the Cunard Steamship Company, said the number of passengers carried by the 19 companies from Jan. 1 to Aug. 31 from North America to Europe was 321,078, an increase of 46,996 over the corresponding period of 1951.

GEMS OF THOUGHT

TIME

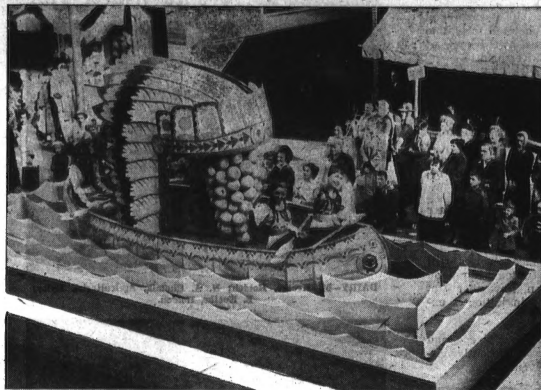

We always have time enough, if we will but use it aright.—Gothie. Time is cried out upon as a great thief; it is people's own fault. Use him well, and you will get from his hand more than he will ever take from years.—Elizabeth Wetherell.

"All successful individuals have become such by hard work; by improving moments before they pass into hours, and hours that other people may occupy in the pursuit of pleasure."—Mary Baker Eddy.

Improve your opportunities... every hour lost now is a chance of future misfortune.—Bonaparte.

Spare moments are the gold dust of time;—of all the portions of our life, the spare minutes are the most fruitful in good or evil.—Hall.

Well arranged time is the surest mark of a well arranged mind.—Sir Isaac Pitman.

GRAPE FESTIVAL MAKES ITS DEBUT IN CANADA.—The grape festival at St. Catharines, Ont., first of its kind in Canada, lived up to its advance publicity by having a parade of floats, dances and singing by various European national groups, and, of course, a beauty contest. On this float which had a pair of live Indian maidens paddling a cardboard canoe through waves under a bower of overripe grapes—was Jeanette Lastowska, later chosen queen of the festival.—Central Press Canadian.

Veteran Bushman Fights Off Vicious Attacks Of Wolf And Deer

MASSEY, Ont.—A veteran bushman said recently a 70-pound wolf attacked him and slashed a deep gash in his right leg.

Taylor Carmichael, 41-year-old bush camp operator at isolated Madawaska Lake in the Algoma district, said he was in the bush about 75 miles north of here when he came upon the animal locked in a furious fight with a deer.

Carmichael, manager of the new Ontario Trappers Association, said he first saw the deer swimming from the island toward an island in the lake. "I jumped in my boat, rowed to the island and dashed into the fight swinging an ax," he said.

"The deer thought I was another enemy and charged me with its needle-point antlers. I swung at it with the ax and it knocked me down in passing," he said.

"Then the wolf jumped me and I fought it off with the ax. Its teeth slashed me twice in the first lunge. It made seven or eight jumps for my throat, but I beat it back with the ax and then got in the blow that finished it."

"The wolf had a taste of blood and jumped on me when I interrupted its plans for a late breakfast," Carmichael said.

District residents maintain that Algoma wolves won't attack a man. "Maybe this one came in from Sudbury district," Carmichael said. He claimed the \$25 bounty for the six-foot pet.

Massey is about 50 miles west of Sudbury.

SUCCEEDS SCHUMACHER.—Erich Ollenhauser, (above), scored an overwhelming victory on being elected chairman of the West German Social Democratic Party. Selected to succeed the late Dr. Kurt Schumacher, Ollenhauser's election dashed the hopes of government politicians who thought the struggle for Schumacher's position would split the party.

No Nobel Peace Prize This Year

OSLO, Norway.—No Nobel peace prize will be awarded this year, it was announced.

Swedish scientist Alfred Nobel, the inventor of dynamite, who died in 1896, left a fortune to found a trust to award yearly prizes for those who have most contributed to the common good in the fields of chemistry, medicine, physics, literature, and peace.

First awards were made in 1901. Last year's winner of the Peace prize was Leon Jouhaux of France, trade union leader, and head of the anti-Communist International Confederation of Free Trade unions.

Last year the prize was \$322,000. The Paris-based committee, which awards the prize gave no reason for the decision not to make the award this year. The money which would have gone with the award this year will be added to next year's peace prize.

It was the 11th time the peace prize had not been awarded since the Nobel prizes were established in 1901.

Cocker Spaniel Is Good "Police Dog"

LOUISVILLE, Ky.—Smokey, a year-old cocker spaniel, is gaining a reputation as a police dog. Several months ago he found two \$1 bills. Recently he romped into the house with a \$1,500 diamond bracelet reported missing by his owner, Mrs. Venita Adams.

English spelling is among the most difficult of any of the world's languages.

Dutch Bus Driver Gets Sample Of Driving In Manhattan

NEW YORK.—A Dutch bus driver got his first sample of bus driving in traffic-tangled Manhattan, and he found the passengers not so friendly as at home.

Jan Van Gent, 32, of Amerfort, The Netherlands, took over the wheel of a Broadway bus during the busy morning rush hour to begin his job as part of an international bus driver exchange.

"Ach, you need eyes in the back of the head," he said, "as you hear horns blared, whistles shrielled and cars and humanity whirled to-and-fro on the busy midtown street."

Van Gent, whose road back in Holland is a quiet, leisurely trip with never an overcrowded bus, took the new atmosphere in stride, rolling expertly up to stops, quickly making change as staid crowds shoved aboard. He murmured: "Much taxi-cab here not good."

Van Gent will get \$75 a week, compared to the 54 guilders (\$14.22) on his own road. "It's better than over for the time by a New York driver."

Ripple Rock Off B.C. Coast Real Danger To Ships

VANCOUVER.—A rock 100 feet in diameter, lying just below the surface, rules the north-south marine traffic on the British Columbia coast with an iron hand.

Ripple Rock in the Seymour Narrows between Vancouver Island and the mainland, 100 miles north of here, is dreaded by mariners just as European seamen fear the Goodwin Sands in the Straits of Dover.

First recorded by Captain George Vancouver on his voyage of discovery of the B.C. coast in 1792, the rock has destroyed more than 100 scores of vessels and hundreds of small boats, with the death of more than 100 men.

Thousands of ships and small craft bound to and from northern B.C. and the Alaskan ports must pass through the Seymour Narrows. Tides of 10 or 12 knots race through the channel, churning the water into a cauldron of whirlpools that can suck small boats under or dash big ships against the rock.

It is only during brief periods of slack water that ships can pass through.

The rock sits just below the surface. Between 1934 and 1945 the Canadian government spent large sums in an attempt to blast 30 feet off the top. It was heart-breaking and dangerous work. In 1945 nine men working on the project lost their lives when a whirlpool overturned their work boat.

Despite heavy anchors and lines made fast to the shores on both sides of the channel, barges dangled over the rock would not remain stationary long enough for proper drilling work.

They never made any real impression on the rock, and last June the project was abandoned.

Some prominent engineering authorities in both the United States and Canada agree it is possible to blast the rock out. Mariners are waiting hopefully.

Many Lives Lost Through Fires In Canada Last Year

OTTAWA.—Exercise of a little care by Canadians last year could have prevented 10,375 fires and property loss of \$21,337,829.

In the last 10 years, 534,735 fires in Canada have claimed 4,066 lives, seriously injured 15,000 persons and destroyed property valued at \$540,000,000.

1951 alone, there were 60,000 fires. They claimed 493 lives and caused property damage of \$76,000,000. Most of the fires—45,000—were in the home.

Just think, careless smoking caused 21,395 fires and damage of \$3,509,294. Defective chimneys, fuses, stoves, furnaces, boilers, pipes, hot ashes, coal and open fires were responsible for another 11,437 fires and loss of \$8,813,413.

On the human side, 15 persons died in fires as a result of smoking in bed. Sixteen children left alone were lost in fires. Children playing with matches were responsible for 12 deaths. The careless use of gasoline and kerosene was responsible for more than 60 deaths.

The fire causes in the home require your attention and this loss of life can be prevented with the application of your care and knowledge of how to protect your property against fire.

Damaged Dignity

SOUTH BEND, Ind.—A \$10,000 damage suit in Superior Court is based on a mouse, a fragile table and "negligent" landlords.

The suit was filed by Mr. and Mrs. Richard F. Adler against Mr. and Mrs. Roy Lawson, the couple from whom they rent their apartment.

The suit says Mrs. Adler was frightened by the mouse, backed into a table which collapsed, and suffered a broken leg. It says the Lawsons were "negligent in allowing the mouse to enter the apartment" and for not warning the Adlers about the fragile table.

One-fourth to two-thirds of the weight of trees is water.

OUR COMPLETE SHORT STORY—

They Still Love Clowns

By Charlotte McCarthy

THE shabby tent seemed to be bursting out at the seams with furry and excitement. It was the biggest town the little circus had ever played, and in a fresh surge of appreciation, Steve Booth, the owner, rushed around in a dither of anxiety, getting in everyone's way. "Please, Mark, don't ask me again. I know you were a good clown in your day, but can't you understand that people just don't go for a clown act anymore?"

Mark Castle, his eyes tense and troubled under his shaggy brows, wiped his bald head with a grimy handkerchief. "If you'd just give me a chance, Mr. Booth, you'd see they still love clowns."

Looking down into the pleading eyes, he realized the uselessness of trying to reason with him. "Listen, Mark. If there's a gap in the billing . . . any trouble? . . . with an old trouper's superstition, he crossed his brows. "I'll let you go on. Okay? In the meantime, for the love of Mike, feed that cat before she yowls her head off!"

From behind the tent an excited, silvery grey horse whinnied, and there was the rising drone of the barker's voice beginning. The big cat, a fawny, pretty old lion, showed brownish teeth in a snarl, as the man approached. "Quiet, Maiale, those teeth of yours ain't much more use than my own." That remark was to be a gap, somehow. He'd show

these people who thought he was finished that he could keep a crowd amused, if only he had a chance. Inside the tent, the seats were filling rapidly. There was a steady hum of conversation, interspersed with the complaining grunts of an old bear. The stink, sweet smell of candy and tasty apples mingled with the acrid tang of the animals, and from a trapeze, a faded blonde swung head down.

He was trying to move a heavy barrel, when he felt the bear's hand on his shoulder. "Pete's hurt his arm, so I guess I'll have to keep my promise. But if the crowd doesn't like you, I don't want to hear another word."

The excitement of the moment was a tangible thing almost, tightening his throat. "They'll like me, Mr. Booth." It was a prayer and a promise.

His old costume was a trifle tight and his hand shook as he applied the grease paint. "I thought they'd put that act in mothballs years ago." He overheard the remark made by a young acrobat.

He had forgotten how a sea of faces appeared, starting up at you. Hundreds of pale moons, whose reaction to your act, make up the difference between success and failure. He had forgotten, too, the tense fear of the first moment, remembering only the thrill of their applause. Somehow, he just had to make them like him.

Slowly, a trifle woodenly, he went into his act. A tiny girl in the front row began sobbing weakly, terrified of the painted face so close to her. His shoulders ached, and there was a sticky river of perspiration between his shoulders. Just let this act go over, just once again, to prove that he had been good, still was, and he'd be glad to go back to the quiet routine of helping look after the animals.

One after the other, pitifully, like a lonely child trying to bribe a friendship with candy, he drew on his heart of tricks. He waited tensely, agonizingly, for the laughter he wanted so desperately. Waited until the act was almost over, and there was only the rustle of paper bags and whispers, sibilant as tearing tissue paper.

There was just a few moments left, and though knowing, with an awful despondency, that he must face the ridicule of the others, the clown, like the seasoned old trouper he was, put everything into a final shuffling dance. Suddenly, it was all around him. Laughter, hysterical almost in its intensity, that reverberated through the tent, and rose to a crescendo unlike anything provoked by the other acts.

He realized then, how close to complete exhaustion he had been, and his heart pounding, almost on the verge of collapse, stumbled on the stage. His voice was a triumphant wheeze. "I guess I showed 'em, eh, boss? But what'll stick to animal tending just the same. That's pretty strenuous work for an old fellow."

"You certainly did show them, Mark." His hand was very gentle on the thin shoulder. Jimmy, the midjet, inclined a willing ear to the host's whispering lips, and via the grapevine, the message passed from ear to ear: "Don't let Mark find out what happened!" And late that night, a tired, completely happy old clown, who was forever done with clowning, puffed contentedly on his pipe, mercifully spared the knowledge that Mikey, an impish little monkey, had found her way to the stage, and from the back-ground had mimicked every movement of his last act, sending the bored crowd into gales of mirth.

Plenty Of Oil, Coal Reserves In The West

WINNIPEG.—Western Canadian, proved oil reserves now stand at 2,000,000,000 barrels, the annual western meeting of the Canadian Institute of Mining and Metallurgy was told here.

By the end of 1951, the proved oil reserves of western Canada stood at more than 1,500,000,000 barrels, and with "several interesting discoveries so far this year," they should hit the two billion mark, Vernon Taylor, management assistant, producing department, Imperial Oil Limited, told his audience.

Also speaking at the energy symposium in the Royal Alexandra hotel was Dr. N. H. Grace of the Alberta research council, who noted that at present requirements, there is enough coal in western Canada for 3,000 years to come.

The new Alberta oil developments haven't been "drilled up," Mr. Taylor said, but it was "not unreasonable to expect the proved oil reserves up to the two billion figure."

Recent discoveries in Manitoba had "proved interesting," Mr. Taylor said, but it was somewhat difficult to tell how much will eventually be produced.

Discussing the sources of energy available in North America, and the world, Mr. Taylor said that somewhere in the neighborhood "fossil fuel" energy is found in the form of coal, while about one per cent of the world figure existed as petroleum or natural gas.

In contrast with this, about 50 per cent of energy uses in the U.S. depends on oil and gas, and this proportion is expected to rise to well above 60 per cent by 1975 according to recent authorities, he said.

Dr. Grace said 90 per cent of Canada's estimated coal reserves were in western Canada.

The director of research for the Alberta Research council, said however, that the cost of coal must be kept down, and this could only be achieved through the vigorous application of research and development to all phases of the industry.

"The proportion of the total energy needs which will be met by coal, will depend, to a considerable extent, on the relative costs of the other sources of energy," he stated.

Dr. Grace noted that in the United States about \$25,000,000 was spent on coal research, of which \$7,500,000 was provided by the U.S. government.

At the same time, upwards of \$121,000,000 was spent by the petroleum industry on research, and this marked the difference in industries, Dr. Grace said.

**Mrs. John Drainie
Puts on Blue Bonnet
— Finds it Best!**

Take your cue from Mrs. John Drainie— "Claire Murray" of radio fame, and wife of the well-known actor, Comedian Buzz Bonnet. Margarine with any spread at any price! Like the leading Canadian lady, you'll find Buzz Bonnet's fresh, sweet flavor always rates top billing. You'll love it's yes-round nutritional value. You'll be delighted with the dollars you save, when you use Buzz Bonnet. Buy Buzz Bonnet, get "All 3" — Flavor! Nutrition! Econom-e-e! Buzz Bonnet Margarine is sold in the regular economy package with color water. Also in the famous Yellow Quix bag for fast, easy color.

How To Save Money and Get Fast Cough Relief

Here's an old, tested, home mixture your mother knew . . . still a most dependable remedy for distressing coughs. Fast and effective, children like its pleasant taste.

Make a syrup by stirring two cups of sugar into one cup of water until dissolved . . . no cooking needed (or you can use maple syrup or honey instead). Now pour 2½ ounces of PINEX CONCENTRATE into a 16 ounce bottle, and add the syrup you've made. You'll have 16 ounces of fast acting, pleasant tasting cough medicine, more than you could buy for four times the money, with effective relief for the whole family.

PINEX—a special compound of proven medicinal ingredients—must help you, or money refunded.

PINEX IS EASY TO MIX—
FAST ACTING—EFFECTIVE

WESTERN BRIEFS

Breaks Into Flaming House

ERANDON.—Quick action by a neighbor saved the home of P. Hancock from being badly damaged by fire. Seeing flames in the Hancock home, the neighbor summoned the fire department and then ran to the nearby house. There was no one at home at the time and he was forced to break his way into the building.

His Share of Bears

MOUNTAIN VIEW, Alta.—Dr. Morris West shot a big brown bear he found in his trap here, but it wasn't the first. Since July, 1951, he has trapped and shot seven bears, including two grizzlies.

Missed Centenary

WHISKY GAP, Alta.—Death, cheated Mrs. Marie Louise Bereszy who was looking forward to celebrating her 100th birthday. Mrs. Bereszy, who had out-lived seven of her 12 children, died two days before the anniversary date.

Charged His Mind

VANCOUVER.—Murray Champness, 16-year-old high school student with thoughts of a writing career, obtained police approval for a tour through the police station from cell blocks to morgue. Now he has decided to become a forestry engineer.

Bright Lights

SARGENT, Alta.—The Sargent Indian reserve is going to be lit up with electricity. Lines are being extended from Calgary to the reserve, where the school will be equipped with electric lights.

To Have Her Desire

LADYSMITH, B.C.—Dorothy Dunca is going to have her cake and eat it too. Dorothy, a bride-to-be, said she wanted a multi-decked cake like one I remember from childhood dreams." Michael Farrago, a graduate of Chicago's Elbel Institute of technology, was busy "engineering" his masterpiece—a 112-pound cake.

Rejects Rumor

CALGARY.—A rumor here that profligate are buying Canadian cement and re-sacking, it in U.S. bags

for the 75-cent difference was scotch-ed by a building industry spokesman. **Useful Hobby** LETHBRIDGE, Alta.—Retired school janitor William Stott has presented the city with seven benches, to be used as resting spots for senior citizens. He made and polished them in his spare time.

Do You Know That . . .

The centre of a baseball is formed of a piece of cork which has been aged for 15 years. 3009

Every Sweet Tooth will love SOUR CREAM BUNS

It's such a thrill to make new year treats—now you haven't to worry about yeast that stales and weakens! Fleischmann's Yeast keeps full-strength, fast-acting without refrigeration. Get a month's supply.

SOUR CREAM BUNS

• Scald 1½ c. milk, ½ c. granulated sugar, 2 tsp. salt and ¾ c. butter or margarine; cool to lukewarm. Measure into a large bowl ½ c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Fast Rising Dry Yeast. Let stand 10 minutes. THEN stir well.

Sieve ½ c. cold mashed potato and mix in 2 unbeaten egg yolks and ½ c. thick sour cream; stir into yeast mixture and stir in lukewarm milk mixture. Stir in ½ c. unsifted bread flour; beat until smooth. Work in 5 c. (about) unsifted bread flour to make a soft dough; grease top. Cover and set in a warm place; free from draught.

Let rise until doubled in bulk. Punch down dough, grease top, cover and again let rise until doubled in bulk. Punch down dough and turn out on lightly floured board; roll to ¼" thickness and cut into ¾" rounds and place, well apart, on greased cookie sheets. Using a floured thumb, make a deep depression in the centre of each bun. Brush rounds of dough with mixture of 1 slightly beaten egg white and 1 tba. water; sprinkle generously with granulated sugar. Cover and let rise until doubled in bulk. Deepen depressions in buns and fill with thick raspberry jam. Bake in hot oven, 425°, about 15 minutes. Yield—3 dozen large buns.

Locals

Mrs. R. D. Allen left Irma early Tuesday morning for Vancouver to be with Mrs. Parsons who is ill. Mrs. G. M. Holt of Wainwright was an Irma visitor last Saturday.

Mrs. T. Donaghy has returned to California after spending the summer months with relatives on the prairies. Her sister-in-law Miss Annette Donaghy, accompanied her to the U.S.

Mrs. C. V. Larson is visiting in Edmonton this week.

Mrs. R. D. Allen visited with friends at Kinross last Friday.

Mrs. H. McKay is again in residence at her house in town. We understand that both Don and Jack plan to spend the winter months in Edmonton.

Mr. and Mrs. S. Congdon Sr. have moved from their farm to Mrs. McLeod's house in Irma. Mrs. Congdon had the misfortune to fall and injure herself quite badly shortly after coming to town. She is, however, now out of hospital and recuperating at the home of her daughter Hazel.

Mrs. W. N. Frickelton and Mrs. E. H. Targett returned on Monday night from a visit to the coast. Mrs. M. McLeod who went to B.C. with them plans to spend the winter months there.

Mrs. Walters of Red Deer is visiting here at the home of her son Mr. H. N. Frickelton.

Social Crediters Nominate R. Fair For New Riding

In a two cornered fight for the Social Credit nomination in the new federal riding of Battle River-Camrose at the convention held here last Saturday afternoon, Robt. Fair, M.P. for Battle River since 1935, defeated H. W. Byerstein, M.P. for Camrose riding since 1946. While the vote was not announced it was rumored that Mr. Fair had a large majority of the votes of the 227 voting delegates. Mr. Byerstein bowed gracefully out of the federal picture.

There was a hitch in the arrangements for the community hall so the convention was moved to the new Legion Hall that was crowded to capacity. Seats and benches had to be moved to the hall to accommodate the delegates and visitors.

Delegates began to arrive early from all parts of the new federal riding. The convention opened at 1 p.m. Considerable time was taken up with the registration of delegates which delayed the nomination speeches. Both candidates were well introduced and spoke briefly of their qualifications. During the voting and counting of ballots, R. H. Jorgenson, president of the Alberta Social Credit league, addressed the gathering. He contended that the Liberals were on the w. out, and that the Conservatives were making overtures to take over the Social Credit movement. He quoted the recent B.C. election results and that that province is carrying the load. The slogan, said Mr. Jorgenson, for the next federal election is: "Canada Wants Social Credit."

Mr. Victor Quelch, M.P., scheduled to be the principal speaker, did not arrive. After the result of the vote was announced, Mr. Fair made his speech of acceptance, pledging to carry on the fight for Social Credit principles at Ottawa, if elected.

A new Social Credit organization for the new enlarged riding was set up with James Smith of Kitchicow, named president, Gordon Strong, Sedgewick, vice-pres. Hon. Anders Aalborg, minister of education, secretary-treasurer.

Prospects Bright For Senior Hockey Team

(From The Viking News)

Members of the hockey team and a number of fans gathered in Hilliker's Hall Sunday afternoon for the annual meeting of the hockey club. The financial statement read by Claude McLaren showed that the club starts out with approximately \$250.00 in the kitty. Prospects for a fast hockey club were good as most members of last year's team are here and there are a number of hockey players in the district who have signified intention of turning out. Players from Irma, Jarow, Holden and Daysland may also join up to bolster the team.

Officers for the season were elected as follows:

Leo Kelly, president.
Allan McIntyre, vice-president.
Larry Proctor, Sec.-Treas.
Executive members: Claude McLaren, Jim Taylor Jr., Lindsay Thumel.
Manager, L. J. Rasmussen.
Coach, Clem Loughlin.

The Wainwright Area Film Council Program will be showing the following films:
Milk Made.
Eye Witness No. 24.
United Nation Screen Magazine.
Sing with the Com. and a cartoon.

At Heath, November 10.
Rosedale Nov. 11; McCafferty Nov. 12; Strawberry Plains Nov. 13; Jarow Nov. 14; Ross, Nov. 17; Paschendale Nov. 18.

Pictured above is Clem Loughlin, who has accepted the position as coach of the Viking Senior Hockey Team. It is felt that, with Clem's knowledge of the game, and his ability to coach, the Viking boys will be a real threat regardless in what league they participate. Clem, in his career, starred with the London Tecumseh's, and later on coached the renowned Chicago Black Hawks.

There were 231,295 golf clubs, 104,483 dozen golf balls, 290,730 baseball bats, 40,285 footballs, and 53,094 tennis, badminton and squash racquets made in Canada in 1950.

Subscriptions Due

When paying your small accounts, don't forget to renew your subscription to the Irma Times. In order to keep the price down to \$1.50 per year, it is desirable that all subscriptions be paid up. Your label tells. Thanks.
